

June 4, 1999

Dear Dr. Weisfuse,

Thank you for your extraordinary work yesterday. I hadn't quite realized what a complicated procedure it would be and how many steps the process involved. I want to tell you how amazed I was by your fine work, care, and patience, not to mention esthetic touch (that I realized more fully walking home), and thought you more than deserve a letter of appreciation! I also want to thank Dr. Lipner for last week. As a patient who has been greatly helped by you over the years, it is especially reassuring and gratifying to be assured again by your high quality expertise. *THANKS!*

With warm regards.

Very truly yours,

P. Deborah Weisfuse, DMD
